

The Countrycare Bed & Breakfast

The *Countrycare Bed & Breakfast* boarding facility provides a warm and friendly atmosphere for your dog(s). We want your animal to feel loved and cared for just like at home.

The Accommodations

Our facility is clean, comfortable, and secure. We have indoor-outdoor runs so that your dog can enjoy some sunshine and country fresh air. The inside is heated and air-conditioned, so the temperature will remain comfortable no matter what time of the year it is! We also play soothing music which helps our guests stay relaxed and comfortable.

The bed & breakfast is completely separate from any hospitalized patients.

We offer several options depending on your individual situation and needs. Indoor-outdoor runs are approximately 3 ft wide by 12 ft long. Crates range in size up to 4 ft. At night, each dog is tucked in to the indoor portion of the run, so they are safe and secure from any "monsters in the dark".

If you have two dogs and they like to be together, they can share 1 run (as long as each dog weighs less than 75 lbs.). No more than two dogs are allowed together in one run without special permission and circumstances. You may prefer that each dog stay in a separate run or crate for the safety and comfort of your individual dogs. You can request that your dogs have their playtime together or separate.

Personal Attention

Personal attention and exercise is standard, not an extra option! Every animal deserves daily love and affection! Thus, we include two "playtimes" (and 'potty' times) each day for every guest. If you would like us to spend additional time with your pet, we are happy to provide more attention at an additional charge. Treats can also be given if you provide us with their favorite snack.

Playtime is spent in our fenced exercise yards outside.

Group playtime for more than one dog by the *same* owner is allowed. For the safety of all our guests and disease prevention, boarding dogs do NOT have contact with any of the other canine guests while they are here. Our runs are specifically designed with solid walls in between so there is not any contact between animals.

Medical Attention

Since Countrycare Animal Complex is a complete care center, we have veterinary staff on duty in case your dog needs medical attention at any time.

We are also able to accommodate any special needs or administration of medications that may be necessary to keep your pet happy and healthy. Please bring medications in properly labeled containers with the appropriate instructions.

We do not charge extra for these services! It is all part of receiving *countrycare* at a bed & breakfast!

Meals

We offer high quality Solid Gold dry dog food to all of our guests. We always provide fresh water and clean bowls.

It is recommended that you bring your own food for consistency and preventing gastrointestinal upset. Please make sure to provide a proper container and enough food to last their entire visit!

Belongings

Personal blankets and toys are always welcome. This helps to make our guests feel more at home. We will do everything we can to keep their belongings safe and clean, but we cannot be responsible if something is inadvertently lost or destroyed.

Even pets that do not chew items at home may be prone to chewing their blankets etc. when in a different environment. Please keep this in mind when packing your dog's suitcase.

Medical Background

All animals staying at Countrycare must be current on vaccinations. You must bring proof of current vaccination status for Rabies, the "Distemper combination" (DHPP) series and Bordatella/ Kennel cough. Vaccination protection is best if administered at least 14 days prior to admission. If you do not have proof of vaccinations upon admission, we will administer the vaccinations.

An examination for fleas and other contagious diseases will be given at check-in for the health and safety of all of our guests. Treatment for fleas, etc. will be required prior to admission at the owner's expense. We reserve the right to refuse admission to any dog that does not meet our requirements.
